PROFESSIONAL SUMMARY

Seasoned lead developer with over 5 years of experience in website development. Proven ability to manage and motivate teams of developers to create scalable and maintainable websites and software. Expertise in a variety of programming languages, development frameworks, and cloud-based platforms.

EXPERIENCE

Lead Web Developer, Dragonfly EA

May 2017 - Current

- Led a team of 3 developers to build and maintain web applications for the company's clients, including creating new features, fixing bugs, and improving performance.
- Responsible for ensuring that critical projects for our clients are expertly organized, scheduled, analyzed, communicated and managed to help organizations improve their business outcomes in the global marketplace.
- Develop new UI functionality for multithreaded user-facing websites running on touchscreen devices, using JS.
- Created front-end websites for Flour Ecommerce and Money Transfer web platforms that won company's Best Digital Marketing and Technology Advancement awards in 2021.
- Spearheaded redesign of company's website and optimizing it for search engines (SEO), which increased traffic by 28% in less than 1 month.
- Created HTML email templates that improved email CTR rates by ~25%.
- Increased email signups 12% by creating a new UI for website landing pages in JS.
- Built single-page websites with JavaScript on a custom-built framework.
- Leveraged AngularJS and JavaScript to build a presentation layer for retail payment pages.
- Developed and maintained critical components of e-commerce websites, including shopping cart, quick view, and checkout page, using JS components.
- Introduced Spreadsheets Project Management concept to increase team productivity.
- Revamped UI and app interface for customer-facing e-commerce site with 200,000+ unique visitors per month.
- Designed and developed front-end for 20+ websites, using jQuery, JS, HTML5, and CSS3.
- Automated image optimization, and minified JS and CSS, which reduced page load times by up to 30%.
- Translated design team's UX wireframes and mockups into responsive, interactive features, using HTML/CSS and JavaScript.
- Demonstrated creative problem-solving approach and strong analytical skills.
- Demonstrated ability to identify workflow pain points, optimize and scale processes.
